Making it all add up by driving prices and determining true profitability

Vistex offers solutions for pricing maintenance that cover everything from agreement initiation to analytics for buy- and sell-side. The solution footprint covers price administration, deal management, price execution, and reporting.

User-friendly layouts and intuitive functionality allow users to adjust prices without delay, while providing the ability to execute mass pricing updates, automating maintenance and eliminating hours of manual processes. Vistex solutions for pricing maintenance save organizations time and free resources by getting prices into your system more efficiently and by evaluating that data. The systems run formulas and calculations to drive prices, helping users evaluate all programs and rebates to determine true profitability.

Business-defined pricing

To avoid errors in maintaining prices in your order entry or materials management system, a solution is needed that allows users to enter pricing efficiently, providing the visibility to review proposed changes and make accurate changes in a timely manner. Vistex solutions for pricing maintenance provide price administration tools that enable customers to perform mass maintenance of pricing and effective dates; to validate pricing according to business-defined price policies; and to conduct and track reviews and approvals with comprehensive workflow tools. The solutions also make pricing administration easier with features that import and manage commodity prices. In addition, Vistex solutions for pricing maintenance can automatically determine updated pricing through user-defined formulas and logic for commodity pricing, price indices, and prices of bill of material components.

Analyze the success of pricing strategies

In today's rapidly changing business environment, it is not enough to just manage pricing structures; businesses also need to analyze the success of pricing strategies. Vistex solutions for pricing maintenance comprehensively manage pricing, incentives and revenue-sharing by analyzing proposed pricing to determine true margin and show the complete gross-to-net, component-by-component, for individual products or for an entire product line or agreement.

Price management adds up to real solutions, real benefits
